USER ACCEPTANCE TESTING GUIDE

Step-by-Step Software Testing Instructions

Version:	1.0
Generated Date:	September 2026
Environment:	Local development / staging (not production)
Test URL:	http://127.0.0.1:5173/ <i>(replace with your staging URL if testing remotely)</i>

Before you begin: Every login, patient, and appointment used in this guide is **synthetic test data** created specifically for testing — nothing here is a real person. Never enter real patient information, real passwords, or real payment details while following this guide. If you're testing against your own staging environment and don't yet have test accounts, ask your administrator to run the same setup described in Section 2.

Table of Contents

1. Quick Start — How to Begin Testing
2. Test Accounts (Synthetic — Never Real Credentials)
3. Module Inventory
4. Section 1 — Login & Getting Started
5. Section 2 — Patients
6. Section 3 — Scheduling
7. Section 4 — Clinical Documentation
8. Section 5 — Mobile Care (In-Home PT)
9. Section 6 — Billing
10. Section 7 — Administration
11. Section 8 — Reports
12. Section 9 — Safety & Audit
13. Section 10 — Other Staff Roles
14. Section 11 — Platform / Super Admin
15. Section 12 — Patient Portal
16. Section 13 — Two-Clinic Isolation Check
17. Section 14 — Logging Out
18. Final Summary Sheet

1. Quick Start — How to Begin Testing

HOW TO START TESTING

1. Open **Google Chrome** (or Microsoft Edge).
2. Go to:
 (or your organization's test/staging URL)
3. Enter:

Username:

Password:
4. Click: **SIGN IN**
5. You should see: **the Source Motion PT Home Page** for your role.

Complete practice operations — scheduling, documentation, and billing in one connected workspace.

COMMENTS

2. Test Accounts (Synthetic — Never Real Credentials)

THESE ARE TEST ACCOUNTS ONLY. Every account below was created by a script (`manage.py create_uat_test_data`) specifically for testing, using a `@uat.test` email domain that does not receive real mail. They carry no real patient data. Do not reuse this password anywhere else, and do not create accounts like this against a real production database with real patients.

TEST ACCOUNT ONLY

Role	Username	Password	What this account tests
Super Admin	superadmin.uat@uat.test	Uat-Test-Pw-88214!	Clients, platform users, system administration
Organization Admin	admin.uat@uat.test		Clinic administration, reports, settings
Physical Therapist (PT)	pt.uat@uat.test		Patients and clinical documentation
PTA	pta.uat@uat.test		Treatment documentation
Front Desk / Scheduler	frontdesk.uat@uat.test		Patients and scheduling
Biller	billing.uat@uat.test		Billing
Patient	patient.uat@uat.test		Patient portal

All seven accounts belong to a dedicated test organization called **"UAT Test Clinic"**, which also has one test patient ("Uat Testpatient"), a test location, a test appointment type, one scheduled test appointment, and one Mobile Care test request already set up — so every screen below has something real to look at instead of an empty page.

If these accounts don't exist yet in your environment, ask a developer to run: `python manage.py create_uat_test_data` — it's safe to run more than once and will not touch any real client or patient data.

3. Module Inventory

This is the complete list of screens found in the application at the time this guide was written, based on inspecting the actual running software and its source code — not assumptions. "Screenshot in this guide" means a real, live screenshot appears later in this document for that screen. A "No" doesn't mean the screen is broken — it means this version of the guide doesn't yet walk through it step by step; the screen still exists and works.

Module	Route	Who Can Access	Screenshot in this guide
Login	/	Everyone	Yes

Section 1 — Login & Getting Started

TEST 1.1 — SIGN IN AS ORGANIZATION ADMIN

Who should test: Anyone

START HERE:

1. Go to the test URL.
2. Type `admin.uat@uat.test` into the User Id box.
3. Type `Uat-Test-Pw-88214!` into the Password box.
4. Click **Sign In**.

EXPECTED RESULT

You should see the "UAT Test Clinic" home page with tiles for Patients, Documentation, Scheduling, Mobile Care, Reports, Administration, and Safety & audit.

☐ PASS ☐ FAIL

IF IT FAILED, WHAT HAPPENED?

Tester Name

Date

TEST 1.2 — WRONG PASSWORD IS REJECTED

Who should test: Anyone

START HERE:

1. Sign out if you're signed in.
2. Type `admin.uat@uat.test` into the User Id box.
3. Type any **wrong** password on purpose.
4. Click **Sign In**.

EXPECTED RESULT

A message says the username or password is wrong. You are NOT let into the app.

☐ PASS ☐ FAIL

IF IT FAILED, WHAT HAPPENED?

Tester Name

Date

Section 2 — Patients

TEST 2.1 — VIEW THE PATIENTS LIST

Who should test: Admin, Front Desk, or Therapist

START HERE:

1. Log in as Admin (or Front Desk).
2. From the Home page, click **Patients**.

The screenshot shows the 'Patients' workspace in the Uat Admin application. The top navigation bar includes 'Go Back', 'Home', and a welcome message for 'Uat Admin' with the last login time. The main navigation menu has options like 'Schedule', 'Mobile Care', 'Patients' (selected), 'Documentation', 'Users', 'Safety', 'Clinic settings', and 'Reports'. The 'Patients' workspace title is displayed, along with a '+ New patient' button. A search box is present with the text 'Search name or medical record number' and a 'Search' button. Below the search box is a table with columns: 'PATIENT', 'MRN', 'ASSIGNED THERAPIST', and 'STATUS'. The table contains one entry for 'Uat Testpatient' with MRN 'SM-42CF08F3DD', assigned to 'Uat Therapist', and status 'Active'. A link 'Open workspace' is visible next to the status. A 'Show' button is located in the top right corner of the table area. At the bottom of the page, there is a footer with the text: 'Private workspace. Keep this screen out of public view. - v1.0 © 2026 Source Motion Physical Therapy LLC. All rights reserved.'

TEST 3.2 — START BOOKING A NEW APPOINTMENT

Who should test: Admin, Front Desk, or Therapist

START HERE:

1. From the Scheduling screen, click **+ New event**.

The screenshot shows the Scheduling screen with a modal form titled 'CREATE EVENT' and 'New calendar event'. The form includes the following fields:

- Patient:** A dropdown menu with 'Uat Testpatient' selected.
- Start:** A date and time picker showing '09/13/2026 09:00'.
- End:** A date and time picker showing '09/13/2026 10:00'.
- Visit type:** A dropdown menu with 'Follow-up visit' selected.
- Location:** A text input field with 'Clinic' entered.
- Home visit:** An unchecked checkbox.
- Buttons:** 'Cancel' and 'Create event'.

The background shows the Scheduling screen with a calendar view for September 13, 2026, and a 'Waitlist' section.

The New calendar event form.

EXPECTED RESULT

A form appears asking for Patient, Start/End time, Visit type, and Location.

Section 5 — Mobile Care (In-Home PT)

TEST 5.1 — VIEW THE MOBILE CARE DASHBOARD

Who should test: Admin, Director, Front Desk, Therapist, or PTA

START HERE:

1. Log in as Admin.
2. From the Home page, click **Mobile Care**.

The screenshot shows the 'Mobile Care' dashboard within a web application. The top navigation bar is dark red with a 'PT' button, 'Go Back' link, 'Home' link, and a welcome message 'Welcome, Uat Admin · Last login: 9/12/2026, 8:24 PM'. Below this is a secondary navigation bar with links for Schedule, Mobile Care (active), Patients, Documentation, Users, Safety, Clinic settings, and Reports. The main content area is titled 'MOBILE & IN-HOME CARE' and 'Mobile Care'. It includes a sub-header 'Review requests, match a provider, schedule visits, and manage provider availability.' and a tabbed interface with 'Home' (active), Requests, Visit Offers, Provider Availability, and Service Area. The dashboard features six summary cards: 'Today's home visits' (0), 'Pending requests' (1), 'Provider offers' (0), 'Active care episodes' (0), 'Visits needing assignment' (1), and 'License/provider issues' (0). A red button '+ New Service Request' is located below these cards. At the bottom, there are two panels: 'IN-HOME PT Pending service requests' showing a request for 'Uat Testpatient' with a 'Match provider' button, and 'TODAY Today's home visits' showing 'No home visits scheduled today.'

The Mobile Care Home tab, showing the one synthetic test request.

EXPECTED RESULT

You should see cards for Today's home visits, Pending requests, Provider offers, Active care episodes, Visits needing assignment, and License/provider issues — with "Pending requests" showing at least 1, and "Uat Testpatient" listed under Pending service requests.

☐ PASS ☐ FAIL

IF IT FAILED, WHAT HAPPENED?

Tester Name

Date

TEST 5.2 — THERAPIST'S OWN MOBILE CARE VIEW

Who should test: Physical Therapist

START HERE:

1. Log in as `pt.uat@uat.test`.
2. Click **Mobile Care**.

The screenshot shows the 'Mobile Care' interface for a therapist. The top navigation bar is dark red with 'PT', 'Go Back', 'Home', and 'Welcome, Uat Therapist · Last login: 9/12/2026, 8:25 PM' on the left, and 'Logout' on the right. Below the navigation bar is a sub-header with 'Schedule', 'Mobile Care' (selected), 'Patients', and 'Documentation'. The main content area is titled 'MOBILE & IN-HOME CARE' and 'Mobile Care'. It includes a description: 'Review requests, match a provider, schedule visits, and manage provider availability.' Below this are tabs: 'Home', 'Requests', 'Visit Offers', 'Provider Availability', and 'Service Area'. The 'Home' tab is active, showing six summary cards: 'Today's home visits' (0), 'Pending requests' (1), 'Provider offers' (0), 'Active care episodes' (0), 'Visits needing assignment' (1), and 'License/provider issues' (0). A red button '+ New Service Request' is below these cards. At the bottom, there are two panels: 'IN-HOME PT Pending service requests' for 'Uat Testpatient' (Cary, NC · from Sep 17, 2026) with a 'Match provider' link, and 'TODAY Today's home visits' showing 'No home visits scheduled today.'

A Therapist's own, narrower Mobile Care view.

EXPECTED RESULT

The same Mobile Care screen appears, but "Today's home visits" and "Provider offers" are scoped to this therapist only, not the whole clinic.

TEST 10.3 — BILLER HOME SCREEN

Who should test: Biller

START HERE:

1. Log in as `billing.uat@uat.test`.

The screenshot shows the Uat Biller Home Screen. At the top, a dark red header bar contains the text "Welcome, Uat Biller · Last login: 9/12/2026, 8:25 PM" and a "Logout" button. Below the header, a navigation bar shows "PT" and "Home" (selected). The main content area is titled "Patients" and displays "TODAY · SATURDAY, SEP 12, 2026". A large "Today" section follows, with the text "Run your day from one connected workspace for documentation, scheduling, payments, billing, and patient communication." Below this are four tiles: "Visits today" (0), "Notes awaiting review" (0), "Reassessments due" (0), and "Secure messages" (0). A "PRACTICE PLATFORM" section is titled "Everything your team needs in one place" with the subtitle "Connected workflows for the clinical, operational, and financial side of care." It contains five tiles: "01 Documentation" (Fast PT notes, progress tracking, and clinician-reviewed drafts), "02 Scheduling" (Day, week, work-week, and month views with home-visit support), "03 Patient payments" (Record payment status with processor references and no card data), "04 Billing" (Create superbills and keep service charges connected to the chart), and "05 Patient communication" (Keep secure messages and care context together in the patient workspace). Each tile has a "Live" button. A red "All-in-one workspace" button is in the top right of the platform section. The bottom of the screenshot shows a light gray bar with the text "The Biller's home screen."

EXPECTED RESULT

A home screen appears focused on billing — the Biller should NOT see Documentation or Mobile Care tiles.

TEST 11.2 — ADMINISTRATION HUB

Who should test: Super Admin

START HERE:

1. Click **Administration**.

The screenshot shows the 'Administration Hub' interface. At the top, there is a dark red header bar. On the left, it contains the 'Source Motion' logo, 'Go Back' and 'Home' links, and the text 'Administration'. On the right, it displays 'Welcome, Uat Superadmin · Last login: 9/12/2026, 8:25 PM' and a 'Logout' button. Below the header, there are four red buttons arranged in a 2x2 grid: 'Clients', 'Users', 'Credentials', and 'Mobile Care Defaults'. At the bottom of the main content area, there is a small version number 'v1.0' and copyright information '© 2026 Source Motion Physical Therapy LLC. All rights reserved.' Below the main content area, there is a light gray footer bar with the text 'The Super Admin Administration hub.'

EXPECTED RESULT

Four buttons appear: Clients, Users, Credentials, Mobile Care Defaults.

Section 13 — Two-Clinic Isolation Check

This is one of the most important checks in this entire guide — it confirms one clinic can never see another clinic's patients or data.

TEST 13.1 — CLINICS CANNOT SEE EACH OTHER'S PATIENTS

Who should test: Super Admin (or ask your platform administrator)

START HERE:

- 1. Log in as `admin.uat@uat.test` (UAT Test Clinic) and confirm you can see "Uat Testpatient" under Patients.
- 2. Log out.
- 3. Log in as an admin belonging to a **different** clinic (for example, one of the platform's other demo organizations).
- 4. Search that clinic's Patients list for "Uat Testpatient."

EXPECTED RESULT
Nothing is found. The other clinic cannot see "Uat Testpatient" at all.

☐ **PASS** ☐ **FAIL**
